## ‘SILK MONEY’ German Necessity Pieces

Most collectors are familiar with the metal ‘NOTGELD’ series and porcelain tokens issued during the depression years of 1921-1922. In the City of Bielefeld the principal industry is silk, hence the issuance of scrip in that form. These pieces measure 4½ by 3 inches and are printed in many colors. There are actually two pieces of silk sewed together forming a distinctive obverse and reverse. These pieces are rather scarce and bring nice prices whenever offered. All have beautiful illustrations and patterns in colors.
